SALE MANAGER'S MESSAGE—

Bowling Green has always been a popular place to sell both with the consignors and buyers. It is centrally located and in a real good cattle area. It has been the feeling of interested persons that a sale should once again be held here. It was decided that in order not to compete with the Kentucky National sale that no fitted cattle would be sold. It was also decided that there was a real need of bred females or females with calves at side since this is the easiest way for a man to get started in the business. Following these lines this sale offering has been put together. The cows are right from the consignors' herds and in pasture flesh. They are all bred or have a calf at side, many are three-in-one combinations. We think you will appreciate this offering. We know they will do good for you. We hope to see you sale day.

Richwood Wonder 2nd x. All-American in his show days now proving a very successful sire for Richwood Farms, Clayton, Ind. The six females they sell in this sale all carry his valuable service.

Richwood Stock Farms, Clayton, Indiana maintain one of the best herds of Polled Shorthorns in this area. Their cattle are always at the top of the strongest shows and when consigned to leading sales throughout the country always give a good account of themselves. Richwood consigns six females to this sale right from the working cow herd, all with long service dates to their outstanding stock bull, Richwood Wonder 2nd x.

WEAN MORE THAT WEIGH MORE WITH SHORTHORNS

In these days of rising costs, cattlemen are looking to Shorthorns for crossing, because . . . they know a Shorthorn bull will add 50-60 pounds to the weaning weight of each calf. They know the resulting calf will be husky, fast-growing and freer from disease.

They know the replacement heifers will calve easier and give more milk.

They know there will be a higher percentage calf crop with a Shorthorn bull in the pasture or on the range.

They know the end result is more money in the bank. Join the swing to Shorthorns.

PARAGON CHIEFTAIN — A big, sound Shorthorn bull that can be used in either a purebred or top flight commercial herd. You will especially like his size.

Since Rolling Meadows was consigning such a large number of females to this sale they felt it would be an advantage to a buyer of his first cattle or to a buyer of a large number of cattle to be able to buy a bull to use on them. Therefore, two bulls will be offered at the conclusion of the female sale. They are Lot 62 and Lot 63.

STANDARD GUARANTEE

Recommended by American Shorthorn Association

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 13 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such a certificate is required by the seller.
- F. All animals catalogued have been tested for T.B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.
